

Redefining Beauty

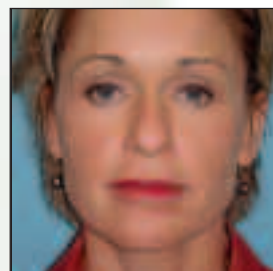

A PUBLICATION OF THE
**COSMETIC SURGERY PRACTICE
 OF SEAN T. LILLE, M.D., P.C.**

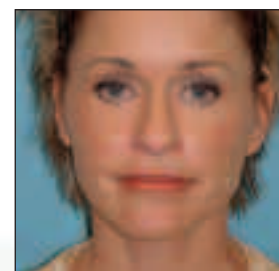

BEFORE

A FACELIFT WITH NO TIME "OFF WORK?"

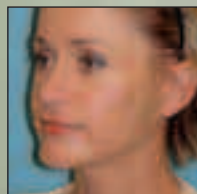

Dr. Lille was recently shown on ABC News (Channel 15 in Phoenix) performing the "Mini-S Facelift", a procedure that has an exceptionally quick recovery time and requires no general anesthesia. Dr. Lille reports that the majority of his patients from this procedure can return to work after only four days. Bruising is usually resolved within 8 to 10 days and can be concealed with makeup. Since actual skin surgery is minimal, swelling is slight and usually completely disappears within 3 weeks. The procedure is ideal for those with a small amount of excess facial skin. For more information to determine if this procedure is right for you, contact the staff at (480) 661-6197.

THE INSIDER

"The Insider", an Entertainment Tonight production, wanted to get the "inside story" on Body Lifts and contacted Dr. Lille, nationally recognized for his innovation and expertise in these procedures. Many people develop excess, sagging skin which must be surgically removed following dramatic weight loss, especially after gastric bypass. The Insider staff flew in from Hollywood to interview Dr. Lille and one of his patients, Tracy Hawkins, from whom Dr. Lille has removed over 40 pounds of skin. Tracy had seen several plastic surgeons who all refused to undertake such a difficult case. A friend referred Tracy to Dr. Lille and, after 5 operations on her stomach, arms and thighs in less than a year, Tracy has a new body and has even hiked the Grand Canyon. The Insider showed Tracy and some of the operations on national T.V. (ABC in Arizona) on March 1st and plans to film Dr. Lille's next "lift" for Tracy, which will be on her calves. The program will air on national T.V. in May. For more information, go to www.theinsideronline.com and type "Dr. Lille" in the search box.

WHAT'S NEW

Vaser liposelection is the newest and most advanced ultrasonic liposuction instrument that has been introduced. Dr. Lille has had experience with the more precise instrument and believes that it offers liposuction candidates greater shaping ability in difficult areas. ABC news will air a segment on Vaser liposelection on one of Dr. Lillie's patients in May 2005. For more information, please call the office.

BEFORE

AFTER

Dr. Sean Lille is a plastic surgeon certified by the American Board of Plastic Surgery. He has authored over 50 publications in the field of plastic surgery and has previous experience at the Mayo Clinic in Scottsdale. He has extensive training and experience performing aesthetic procedures and has been featured on ABC 15 and National Television.
