Did you wear a T-Shirt at the beach or pool this Summer to hide something?!!

You are not alone. Gynecomastia is a common occurrence in males with surgery often being the definitive treatment. Impactful results can be obtained using the Vaser liposuction for shaping and skin tightening along with direct excision of the glandular breast tissue. The outcome results in an even greater sense of self-confidence!

Call for an appointment NOW at 480-661-6197!

My Personal Trip in the Skin Care Time Machine

(photo property of VI peel)

I like to be in the outdoors, and in Arizona your skin can take a hit. Well, after so many years, I finally decided to undergo Margaret's (our aesthetician) time machine skin care regimen. I looked in the mirror that reflected all those warm sunny days, and noticed more dark spots and wrinkles. After GIVING MYSELF some Botox to help with the upper 1/3 of the face, I still had stubborn sun damage.

Margaret encouraged me to get the Perfect Peel, but I was initially suspicious of the amount of skin damage reversal it could accomplish. Extensive studies found the peel to improve Crow's Feet, Fine Lines & wrinkles throughout the face. In fact, up to 71% of participants reported a significant improvement in "improved fine lines" and "skin suppleness." In addition, participants rapidly showed a reduction in melanin content and increase in collagen content. So with this knowledge, I decided to give it a try.

To prepare my skin for the peel, Hydroquinone and a Retinol were used for 3-4 weeks. Hydroquinone reduces sun spots and uneven pigmentation by pushing these skin cells to the surface and then flaking off leaving you with radiant, healthy skin. The Retinol is a powerful exfoliating agent and antioxidant that primarily has two functions; it reduces the buildup of dead cells on the skin by exfoliating the skin and speeds up the skin cells cycle which stimulates collagen. This process promotes the growth of healthy cells.

I was then ready for the Perfect Peel. The peel acts as a strong exfoliator pushing all impurities to the surface to flake off leaving you with a new, refreshed layer of skin. Its aggressive in rebuilding new skin by reorganizing the underlying collagen causing more contraction and reducing the small wrinkles. After the peel, I did another round of the Retinol and Hydroquinone along with using a powerful moisturizer. I was pretty impressed. Depending on the results of each individual more than one treatment may be required. If you have any questions about it please contact Margaret to talk more about this impactful regimen.

Perfect Peel Normally \$300

NOW \$225!!

If you get the Peel, you can also have 25% off any additional skin care products!!

Call our office to obtain more information at 480-661-6197

What!! Free Surgeries!!

Our Generous Refer a Friend Program

Patients or anyone who refer friends who end up having any surgical procedures receive a \$250 Gift Certificate for surgeries or a \$150 gift certificate for skin care, Botox or skin filler injections. In other words, refer enough patients and you continue to accumulate \$250 of gift certificates that can pay for the entire surgeons fee for the procedure of your choice!! Not bad for having lots of friends.

The Mommy Makeover - The solution to what dieting and exercising SOMETIMES cannot do

Skin, fat and a lax abdominal wall all occur with child-bearing. The most definitive procedure to restore your original abdomen is to perform a tummy tuck with a Vaser liposuction to the flank area if fat exists in the lower back. Come see us for more information!
